

Privacy Policy

Effective Date: July 7, 2026

Introduction

Thank you for using the Forget-Me-Not Notes App("the App").

Your privacy is important. This App is designed so that your information remains under your control. The developer does not operate servers that collect or store user information.

Information the Developer Collects

The developer does **not** collect, store, sell, rent, or share personal information.

The developer does not receive copies of your saved data or have access to your Google Drive files.

The App does not collect:

- Names
- Email addresses for storage by the developer
- Phone numbers
- Location information
- Contacts
- Photos or videos
- Messages
- Analytics
- Advertising identifiers
- Crash reports
- User activity for marketing or advertising purposes

Google Account Authorization

If you choose to use the Google Drive backup feature, the App will ask you to sign in with your Google account and authorize access to the files required for backup and restore.

This authorization is used **only** to:

- Create backup files in your Google Drive
- Read your backup files when you choose to restore them

- Synchronize your saved data between your own devices

The developer does **not** receive, store, or retain your Google account credentials or personal Google account information.

Google Drive Storage

Your saved data is stored as JSON files in your own Google Drive account.

The developer cannot:

- View your backup files
- Download your backup files
- Modify your backup files outside of the App
- Access your Google Drive account

You may revoke the App's Google Drive access at any time through your Google Account settings.

In-App Purchases

The App offers optional cosmetic purchases such as themes and skins.

Purchases are processed securely by Google Play Billing.

The developer does not receive your payment card information or other financial information. Google processes payment information and purchase verification in accordance with its own policies.

Third-Party Services

The App uses Google services to provide optional functionality, including:

- Google Play Billing
- Google Play Services
- Google Identity (for Google account authorization, if used)
- Google Drive API

These services are operated by Google and are governed by Google's own Privacy Policy.

Data Security

The App communicates with Google services using encrypted connections.

Because the developer does not maintain servers or databases containing user information, there is no developer-hosted repository of personal data.

Children's Privacy

The App does not knowingly collect personal information from children.

Changes to This Privacy Policy

This Privacy Policy may be updated from time to time. Updates become effective when published with the App or its Google Play listing.

Contact

Questions regarding this Privacy Policy may be directed to the developer using the contact information provided on the Google Play Store listing.
